Summary

- Passionate about leveraging Articial Intelligence and Data Science to drive innovation and solve real-world challenges, I'm Aravindan, currently pursuing a Bachelor of Technology (B.Tech) in Articial Intelligence and Data Science from Karunya Institute of Technology and Sciences.
- Throughout my academic journey, I've demonstrated a strong commitment to continuous learning and hands-on experience. I've actively engaged in diverse projects, honing my skills in areas such as data analytics, machine learning, cloud computing, and programming languages including Python, Java, and JavaScri

Experienced professional adept in marketing, web development, customer service management, and social media. Skilled problem solver and innovative thinker with a track record of creating impactful websites and driving business success.

- Key Skills:
 - Marketing Strategy
 - Web Development
 - Customer Service Management
 - Website Creation
 - Social Media Management
 - Problem-Solving
 - Innovative Thinking

4+ years experience in hacking field , I have made 55+ website for my customers and 2+ website for my personal uses

 Join me on this exhilarating journey as we explore the limitless possibilities of AI and data science. Let's collaborate, innovate, and together shape the future of technology. Dedicated Software Developer with a background in developing custom applications. Skilled in system integration, application performance optimization, and database developme

Education

12th grade, DAWN MATRIC HR SEC SCHOOL DHARMAPURI 2021 - 2022

B.TECH, Karunya Institute of Technology and Science (Articial Intelligence and Data Science)

2022 - Present

Technical Skills

Industry Knowledge:

Proficient in various industry concepts including data science, data analysis, data engineering, web development, artificial intelligence (AI), machine learning, and deep learning.

Programming:

Proficient in various programming languages including Python, Java, JavaScript, C++, and SQL, with hands-on experience in developing custom applications, system integration, application performance optimization, and database development.

Tools & Technologies:

HTML5: Skilled in utilizing HTML5 for structuring and presenting content on web pages, ensuring compatibility across different browsers and devices.

JavaScript: Competent in JavaScript programming language for implementing interactive features and dynamic content on websites, leveraging both Essentials 1 and Essentials 2 courses.

JSON: Experienced in working with JSON (JavaScript Object Notation) for exchanging data between a server and a web application.

Azure Al: Certified in Microsoft Azure Al Fundamentals, Proficient in leveraging Azure services for developing and deploying Al solutions. NVIDIA Omniverse: Knowledgeable in NVIDIA Omniverse platform and Python for 3D automation and development.

Networking: Skilled in networking concepts and technologies, including Python, Java, C++, Node, MongoDB, SQL, Oracle, PHP administration, C Panel control panel, and Blockchain with Solidity for web 3.0 development.

Deep Learning: Experienced in deep learning techniques such as generative AI (GAN), convolutional neural networks (CNN), recurrent neural networks (RNN), long short-term memory (LSTM), and LLM.

Web Development:

Proficient in web development frameworks and libraries like Angular.js, Node.js, and React.js for building scalable and responsive web applications.
